PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience designing, developing, and deploying scalable microservices-based applications using Python and AWS Cloud. Strong expertise in building RESTful APIs, optimizing system performance, and developing high-availability backend systems. Hands-on experience with Docker-based containerization, cloud infrastructure (EC2, S3, Lambda, RDS), and Agile development practices. Proven ability to collaborate across teams, solve complex problems, and deliver production-ready solutions.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript
Backend: Django, Django REST Framework, FastAPI, Flask
Architecture: Microservices Architecture, Distributed Systems
Cloud: AWS (EC2, S3, Lambda, RDS, Athena)
DevOps & Tools: Docker, CI/CD, Git, (Basic Kubernetes - Familiarity)
APIs: RESTful API Design, API Integration, API Scalability
Databases: MySQL, PostgreSQL, Elasticsearch
Concepts: System Design, High Availability, Performance Optimization
Methodologies: Agile (Scrum, Kanban)

PROFESSIONAL EXPERIENCE

Data Engineer / Backend Developer

Facileserv Technologies, Pune

Dec 2023 – Present

- Designed and developed scalable microservices-based applications using Python, improving modularity and system performance.
- Built and maintained RESTful APIs for large-scale data systems, ensuring seamless API integration with frontend applications.
- Deployed and managed cloud-native applications on AWS (EC2, S3, Lambda, RDS) ensuring high availability and scalability.
- Containerized backend services using Docker, improving deployment consistency and reducing environment issues.
- Optimized SQL queries and Elasticsearch indexing, improving data retrieval performance by 30–40%.
- Monitored system performance and resolved production issues, minimizing downtime and improving reliability.
- Collaborated with cross-functional teams to translate business requirements into technical solutions.
- Participated in code reviews, ensuring adherence to best practices and high code quality.
- Worked in Agile environment with sprint planning, backlog grooming, and continuous delivery.

Backend Developer Intern

Wharf Street Strategies

Jul 2023 – Oct 2023

- Developed RESTful APIs using Django REST Framework, enabling efficient data communication for applications.
- Implemented authentication and authorization mechanisms, improving system security.
- Integrated location-based services and improved API response efficiency.
- Performed debugging, testing, and performance optimization of backend services.

Backend Developer Intern (Python)

ASORG Softtech India Pvt. Ltd.

Jan 2023 – Jul 2023

- Built high-performance APIs using FastAPI with Pydantic validation.
- Designed backend services following microservices architecture principles.
- Implemented JWT authentication and real-time data processing features.
- Improved system performance through efficient request handling and optimized logic.

PROJECTS

AWS-Based Automated Data Processing System

- Designed a cloud-based data processing system using AWS S3, Lambda, and Athena.
- Automated data workflows using Python scripts (Boto3), improving efficiency and reducing manual effort.
- Optimized query execution time by 40%, enhancing performance and scalability.
- Built within a Dockerized environment for easy deployment and scaling.

Data Slicer Tool (Scalable Data Platform)

- Developed a scalable backend system using Django, Python, and Elasticsearch.
- Implemented advanced filtering, pagination, and optimized queries for large datasets.
- Integrated AWS S3 for secure and scalable data storage.
- Deployed application on AWS EC2 using Docker, ensuring consistent environments.

SPACE-IZ Ride (Ride-Sharing Application)

- Developed backend APIs using Django REST Framework and MySQL.
- Built real-time features and optimized API performance for better user experience.
- Collaborated with team in Agile environment across full development lifecycle.

EDUCATION

Master of Computer Applications (Integrated MCA)

2017 – 2022

RCPET Institute of Management Research and Development

CERTIFICATIONS

- Python for Web Development – IBM Skills Network
- Backend Developer Internship Certificate – ASORG Softtech (2023)
- (In Progress) AWS Certified Developer – Associate
